hi all

just talked to the transporter and he wanted to know whether it is possible for him to come to istanbul with the load already on thursday the 28.3.2002

me and mika will be landing around 3 pm on that day....

silly question ? will easter in any way affect the customs in the border (greek side? turkish side?)

sorry i'm lagging behind it's taking more time to get confirmation for the loans and info from certain artists. we are currently making the texts for the catalogue and they will go to the language checking next week so you'll get the english tetxs (interviews and essay) around 25.2.

picture material will be ready on 22.2. and i'll send you a CD on following monday or tuesday

vasif would you like to write a preface for the catalogue - shortish one - one A4....

best

kari
