

Hello Tuulikki, you can directly communicate this with Yasemin Tenger (assist@proje4L.org)

Here is my suggestion regarding the street posters:

1. we send you the logo and all museum information that need to be on the wall poster. (along with the turkish font files)
2. we send you the title of the show in turkish (along with the turkish font files of your designer's choice)
3. the print specifications for the design (the dimensions / resolution and such)
4. You design it there
5. You send us the approved and final copy of the design (on CD by express mail with all the necessary font files and a JPG image and print file of the same)
6. it gets printed here! (this part is easy)

Best,

Vasif
