Dear Cris:

Any time of your choice in mid to late August is perfect with us. The other option is September, after the Bosch exhibition. The biennial opens on September 21, and I have a smaller exhibition opening on the 20th. The city will be alive (?) from September 5 onwards.

We are just very glad to work around your schedule.

As for the technicalities (as embarrassing as it is), we will take good care of you, provide the costs for travel, stay, the visa cost that you can get immediately at the airport when you land, and an honorarium of USD 500. Charles Esche and Hans Ulrich were here recently. I hope they will put a good word in for us.

Warm regards, and hoping to hear from you soon.

Vasif
