Dear Vasif,

Thanks for the e-mail! Of course I want to come to Istanbul again. What does your agenda say? How about the fall? The problem is that I will be in LA from early May till early September (just a few short trips to Germany in June for documenta and maybe in August) because of Luisa who has to work there. In March I might be in Helsinki for the whole month on a research residency provided by NIFCA. But we should maybe just fix a date and stick to it! You should also tell me what you have in mind I should talk about. It would be great in fact to come earlier as I am doing this research on performance and performance influenced work for a book I am doing for Thames and Hudson and have no artists on my list from Turkey witch is a shame.

Yours truly,

Jens
