Dear Artists talks venues,

Please find enclosed the corrected list of your addresses. NIFCA's network north pages are now open, though still quite rough. They now badly need your information on the times, artists and themes of the artists talks.

Even more pressuring is the timetable for our newsletter NIFCAinfo, which will be going to layout next week and to print in two weeks. Rebecca and Caroline will do it from Scotland and the theme is Network North - meaning that it would be more than vital that your information is in there. This paper will be circling from mid March to end of June in an edition of 5000, so not a small medium.

Anxiously waiting for more material,
Tuulikki
