Dear Birgit Flügge:

I heard the wonderful news last night that the Danish Design Center had agreed to allow Proje4L utilize the digital materials for the exhibition "Milestones & Evergreens". This will be a great asset for Proje4L's presentation.

Would it be possible for you or a member of the DDC staff to inform us regarding the type of paper (glossy/ matte/demi-matte or other, lamination and matting (aluminium / foamcore or other) you prefer us use for the printing and display.

As agreed Proje4L will retain the original layout, format and size of the panel displays as set out in the initial printing. We will produce and display the production for the exhibition only.

Sincerely,

Vasif Kortun
