Dear Erik,

we need urgently your slides, because I plan to have all the visual material for the book, this week (we have to prepare, to scan them to start the mise en page)

or:

if you could scan them in a very short time, you have to do it (as I learned from Esen) with 304.8 dpi and the dimensions of the book are 13.5x19.5 so you have to scan the images minimum 19.5 cm so we can use them as big as possible.

And as you know we don't have artist pages in the book, so inside the text we don't prefer to use the images, (the last decision) they'll be free, I'm not sure if we'll use the images of the drawings but maybe we'll need the Bahcesehir views for Didem's text and also the other slides.

Please could you send them by DHL if it's impossible for you to scan them in a short time. (We'll pay the cost for the post).

soon

Özge
