

Keraban'ın karşılaştığı aksiliklere eş,
Proje de rotasından saptırmak isteyen türlü deniz mahlukatıyla cebelleşir.
İş o ki, bu mahlukat projeyi sahiplenir,
kimi kez yanlış tezgahlarda, yanlış niyetlere karşı koyar.
Ancak unutmayalım ki inat ile yol alan Keraban
eninde sonunda karşı kıyıya varacaktır.

Echoing the misfortune Keraban faced,
The project also has to fight against various sea beasts that seek to detour.
These beasts attempt at owning the project.
Confronts malign intentions in malign places
However, thou shalt not forget that Keraban the stubborn
will eventually make it to the other coast. *

Unfortunately, very recently “Apollonia: South East Artistic Exchanges” has appropriated the scope, methods and aims of this project. However their true aim is to confiscate this potential by not doing anything at all.
