hi vasif, jasmine and dilek,

i heard that there had been articles in radikal and milliyet(?) and also a full page in time out . could you please send me a copy of timeout article with fax and get also two copies of each published article (those i can take with me when i come in mid-june)

lene vaering jensen and milla toivanen asked whether you could ask somebody to take slide-photos (small size/kino-dia) of their works (both installation and individual)
from lene you could have 4 shots taken of each work and 4 installation pictures
from milla you could have 4 shots taken of 10 individual works and 4 installation pictures

also elina merenmies would need small slides for her forthcoming catalogue of the drawings named below

the photographer should photo the works by placing a matt-black cardboard in front of the camera so that only the lens comes out from the black surface to avoid any shining mirror-images from the frame-glass of the works.

72 baby monster
83 mustard
86 Princess with moustache
89 She's alive
90 shrew

my fax number is +358-9-668 594

how many visitors have you had? whats the tone of the reviews in newspapers been?

please let me know whether this is possible and see you soon

love

kari
