Hello Francesco, the lecture is at 18:00 on July 17. You said you were arriving on the 16th, but when? We will grab you.

At 8:30 that evening there is a gathering + dinner around the pool of the founder of the Proje4L. His wife is fluent italian, and they have invited the turkish aria, fiat and some more italian interests, (these folks supported in 2002 the Turkish exhibition for Venice Biennale), and i am inviting a few artists and critics to make the evening a bit more bearable.

There are two interviews waiting for you, one I will do if you do not mind for a magazine, and the other for the main culture newspaper.

So, my dear when is your flight? Can I also get your mobile number?
