Dear Vasif,

This would be the title of my lecture:

Be your own programmes and the audience of someone else's programme

A lecture on the fruitful gap between a post-academic institute for research and production and other institutions (the gallery, the museum, the academy, the university)

Shall we plan the lecture right away - otherwise my agenda gets filled before arranging things. My proposal: from Tuesday 29/10 until Thursday 31/10. If it would be possible, I could be staying until Friday 01/11. Do you arrange the hotel and flight?

Kind regards and very much looking forward in discussing above mentioned and other issues,

Koen
