Subject: Adress??

Hallo Özge,
please send me immediatly the adress of the office in Beyoglu.
The CD's and page proposals are finished and I want to send them as quick as possible to your office with a delivery service. The bill is not the only costs
I had until now how we deal with paper (because I made a maquette of all the images for the book) and CD costs? Should I add all my extra costs until now and you make me a bank transfer?
Should I speak about that with Vasif? - I actually send him as well an e-mail to ask him because that is not the only costs I have here.
But first I need the adress I am courious what you think about my proposal because it was again a lot of work.
Greetings
Erik

Dear Erik,

Don't care about my last message, I learned after that I send it to you that Esen replied you.

for now we don't have a parcel service that we're working together, so you can use DHL but I'm not sure if they accept to send the bill here if not you can send the bill to us so we'll pay it to you. You can use the office's adress (but not the museum's just the office in Beyoglu.)

best
özge
